EDUCATION

WMG Academy for Young Engineers — **Coventry, UK**
A-Levels — Sep 2025 – Jun 2027

- Predicted grades: Mathematics (C), Computer Science (A), Physics (B)

Extended Project Qualification (EPQ) — **Coventry, UK**
Grade B: Saving and Investment, Best Strategy for Wealth Creation — Sep 2025 – Jul 2026

- Compared savings products and investment classes on risk, return, liquidity and tax; analysed 10 years of price data for Bitcoin, Tesla, Apple and Coca-Cola, concluding that long-term investing outperforms saving

Meadowpark School — **Coventry, UK**
GCSEs — Oct 2024 – Jun 2025

- 6 GCSEs at grades 7–5, including Mathematics (7) and English Language (5)

WORK EXPERIENCE

National Grid X Generating Genius
Cyber Security Insight Programme — Aug 2026

- Investigated a simulated insider threat: cracked ciphers, decoded an IP address and spotted phishing attempts; used Kismet to see how wireless networks are monitored for vulnerabilities
- Worked in a team of 4 to present to a cyber security analyst on the Great Grid Upgrade, protecting critical infrastructure, and the difference between IT and OT security

Leaf Pathway
Internship — July 2026

- Helped organise a mock assessment centre and interviews to prepare 50+ young people for apprenticeships
- Created presentation slides and templates demonstrating assessment centre activities and interview practice
- Collaborated remotely to develop resources on the recruitment process, teamwork and communication

Rolls-Royce
Behind-the-Scenes Work Experience — May 2026

- Co-developed STEMpass in a team of four, a proposed VR outreach programme for engineering skills gaps
- Presented the proposed solution to industry professionals, and evaluated its feasibility and potential impacts.

PROJECTS

RevisionPilot
A-Level Computer Science NEA — In development

- Developing a web app in Python, Flask, Jinja and SQLite that generates personalised revision schedules from a student's timetable, subjects, commitments and available study time
- Designed a prioritisation algorithm that allocates revision sessions by task priority, deadline and study time.
- Designed the system to handle timetable constraints and flag when available study time is insufficient

EXTRACURRICULAR ACTIVITIES

Positive Youth Foundation — **Coventry, UK**
Assistant Basketball Coach (Volunteer) — Feb 2026 – Jul 2026

- Co-led weekly sessions for 20–40 young players, adapting drills and feedback to different ages and abilities

Private Maths Tutoring
Tutor (Self-employed) — Jul 2026-Present

- Provided one-to-one maths and science tutoring, planning lessons, adapting explanations to the student’s level
